## Apprenticeship Scheme

---

If you're looking to get your career off to a flyer, MAN could be right up your street.

MAN is one of the fastest growing truck and bus companies here in the UK and is heavily committed to its own apprenticeship programmes - which help to meet future customer support requirements.

It provides a well directed career apprenticeship programme that is fully registered and approved to ensure the selected apprentices receive a sound knowledge of the truck, bus and coach industry in either parts or technical service.

Designed to produce qualified and professional Technicians and Parts Staff who can help MAN and its dealer network look after the growing number of MAN and ERF vehicles on the roads, the MAN apprentice programme includes:

### Service Technicians and Vehicle Parts Operations

Employed by your local MAN dealer, you will be enrolled in one of the apprentice programmes.

Working alongside skilled and experienced technicians or parts staff, learning how to get to grips with the technological requirements of the modern commercial vehicle, or dealing with computer programmes and vehicle parts logistics, that are the way of the future with today's transport industry, the apprentice programmes are all about developing your skills to help you succeed in today's fast moving world of transport.

### MAN Service Technicians

Designed to provide apprentices with a thorough training in vehicle mechanical and electrical systems, this is a three year programme with college block release that will provide fully qualified technicians to meet the future needs of our dealers and operators.

Training is split between working at your local MAN dealership, where students gain much of their practical experience and regular visits to MAN's sponsored Training Academy at Bristol, where advanced theory and technical training are provided.

### Programme Requirements

- Minimum of 4 GCSE 'C' Grade or above
- A keen interest in mechanical and electrical systems
- A real desire to pursue a career in the truck industry
- A positive attitude to work and study

### Programme Details

The 3 year Service technicians programme operated under the MAN banner is second to none. With a growing industry that is crying out for young people who want to go far in a fast moving environment, MAN programmes offer a genuine apprenticeship that will set you on the road to success in the future.

### Programme Benefits

- Tool Kit
- Outward Bound® Experience
- Annual Apprentice of the year awards
- NVQ level 3/BTEC national certificate
- EngTech Accreditation

## MAN Vehicle Parts Operations

Designed to provide apprentices with a thorough grounding in vehicle parts stock, supply and logistics, this is a three year programme with block release that will provide fully qualified parts persons to help meet the future needs of our Dealers and Operators.

Training is split between working at your local MAN dealership, where apprentices gain much of their practical experience and regular visits to MAN's sponsored Training Academy at Bristol, where advanced theory and technical training are provided.

### Programme Requirements

- Minimum of 4 GCSEs 'C' grade or above
- A keen interest in heavy commercial vehicles
- Ability to work as part of a team
- Good communication skills

### Programme Details

The 3 year parts apprenticeship operates under the MAN banner and is the first of its kind in this industry. With MAN looking for young people who want to go far, the programme offers a genuine apprenticeship. Vehicles rely on good parts supply, which in turn requires effective stock management at the local dealership, here's your chance to become a professional in parts logistics for commercial vehicles.

### Programme Benefits

- Outward Bound® Experience
- Annual Apprentice of the year awards
- NVQ level 3/NVQ level 2 parts logistics

MAN is one of Europe's largest truck and bus manufacturers. The customer support team in the MAN network play a vital role in maintaining the company's 60,000+ UK vehicle parc and require parts and service staff who can fully appreciate electronic technology in vehicles like the MAN TGA and ERF ECT Ranges.

To achieve this support and prepare for the future, MAN and its dealer network are looking for forward thinking people able to take up the challenges offered by an MAN apprenticeship.

After successfully completing the selection process, apprentices will work on trucks buses and coaches that are at the leading edge of technology - as demanded by today's environmentally concerned world.

Training will be divided between your workplace and the purpose built MAN Training Academy based in Bristol. It may also include PC work on a distance learning basis.

All MAN training is constructed to make you a qualified and valuable member of the dealer network Customer Support Team, thereby meeting the needs of our ever increasing operator base here in the UK.

For more information on the exciting new MAN Apprenticeship Programmes, simply contact the Personnel Manager at your local MAN Dealer today.
